

Since my divorce three years ago, the only station I listen to is K-LOVE radio in Denver. The positive messages and songs of hope and encouragement are far more beneficial to the community than other programs which feature argumentative talk shows or music which promotes violence and degradation. There is such a demand for quality programming, that this areas 4th Christian radio station began broadcasting in 2004. Do not clutter the airwaves with more frequencies such as LPFM. Please continue to keep K-LOVE on the air. Thank you.
